CORVALLIS MAGAZINE, published by Tom Wilson in the years 1962-1965, contains a broad range of information about Corvallis and the surrounding area. In this index I have attempted to include every person, place, and thing mentioned in the magazine. If a picture of the person, place, or thing is included I have noted that information in the citation. Spelling of the original is followed. I have made little attempt to consolidate entries so an item will appear under whatever heading it had in the magazine. The citation includes volume, number, and page number in that order. To find the citation 1:1:10 turn to volume one, number one, page ten.

Karen Allen typed this index. Thank you.
