HELLO!

You say she's gone shopping,
 Then I'll reach her at Nolans....Oh Yes,
 I'm sure.....that's where she always
 shops. . . . Nolans policy of selling known
 labeled merchandise at moderate prices appeals
 to her sense of careful spending.

OREGON STATE COLLEGE

Oregon State College, one of the institutions of the State System of Higher Education which are located in six different cities, was established at Corvallis in 1868. It is the seat of the State's scientific and technical higher curricula, comprising lower division studies in the liberal arts and sciences, and upper division and graduate curricula in the biological and physical sciences, and professional curricula in Agriculture, Education, Engineering and Industrial Arts, Forestry, Home Economics, Pharmacy, and Secretarial Science.

The property of the College is inventoried at more than seven and a half million dollars; the campus and College lands at Corvallis comprise 1,000 acres, while a total of 7,000 acres, including experiment station lands, arboretum and forest lands, are owned by the State and the counties for the use of the various functions of the State College.

The campus extends from the heart of the city at Ninth street westward to the Agricultural Mall at Thirtieth street, where the College farms begin, extending west and south toward the foothills of the Coast Range. Recent new buildings include the Student Health Service building at Twenty-third street and the new Dairy group west of Thirtieth street.

The average enrollment for the ten years between 1920 and 1930 was 3,600 for regular degree-course students, exclusive of summer session and other short courses. Enrollment reached a new high level in the fall term of 1936-37, and the cumulative second term enrollment already exceeded 4,000, which was considerably in excess of the previous highest enrollment for the year of 3,873. The College is distinguished for its service to applied science, agriculture, home economics, and the industries. High standards of scholarship and achievement, a strong faculty, an alert high-minded body of students, and a distinctive college spirit have combined to make the name "OREGON STATE" a symbol of desirable college life.
