

Please request ebooks and e-audiobooks from within our ebook services. [Cloud Library](#) requests will go to the ebook selectors at the Corvallis Library for consideration. Requests for [Library2Go \(Overdrive\)](#) will go to the selection committee of the Oregon Digital Library Consortium for consideration. By making the requests within the ebook service you will have the option to be put on hold for the book if it is purchased.

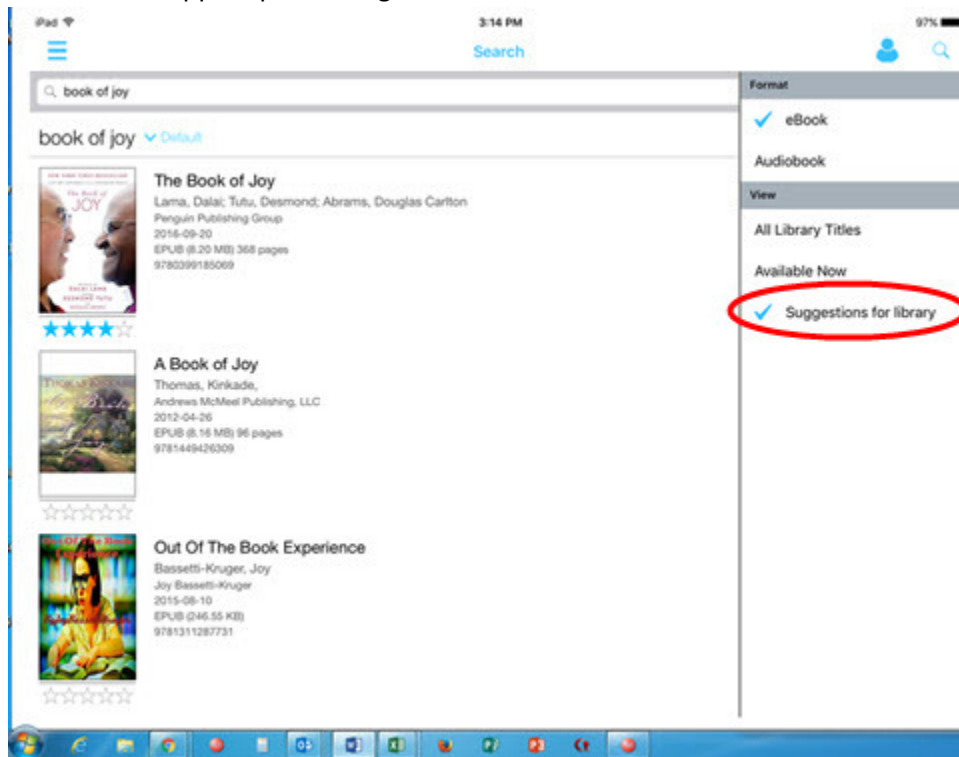

Here's how to do it:

[Cloud Library](#)

- You can use the filter within Cloud Library to see titles not owned by the library that you can suggest. Click or tap “Filters” in the main menu.

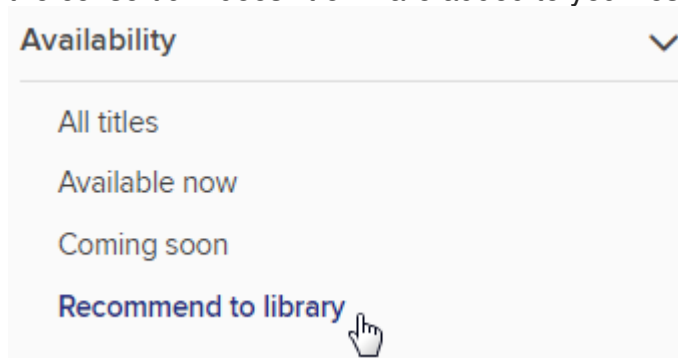

- or within the app swipe from right to left.

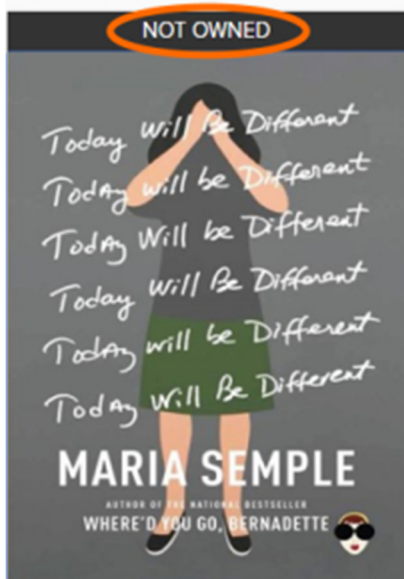

- Under “view” select “Suggestions for Library”
- Enter a search for the title you would like to recommend.
- Click on the “Suggest to Library” button next to the title.
- To make sure you receive an email notice when the title is available to borrow, go to “settings” and click the button for “yes, notify me” and enter your email address.

Library2Go

1. Run a search in Library2Go.
2. On the results page, select **Recommend to library** under the "Availability" filter. Titles the consortium doesn't own are added to your results.

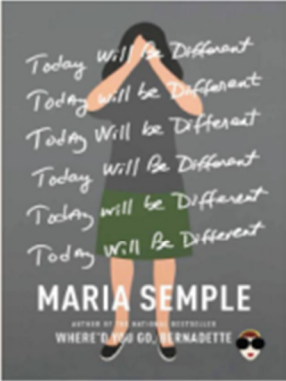

3. To tell which titles aren't part of the digital collection, look for a **Not owned** banner and **Recommend** link. Click or tap **Recommend** to recommend a title. If prompted, [sign in](#).
